

Set up/Install the database sakila. The database will be used for next MySQL Assignments as well. Refer the Links given above for help in setting up the database.

Downloaded Sakila database from the links to desktop

Moved Sakila database into MySQL

```
mysql> show databases;
+-----+
| Database |
+-----+
| employee |
| information_schema |
| mysql |
| performance_schema |
| sakila |
| sys |
+-----+
6 rows in set (0.00 sec)

mysql> use sakila database
Database changed
```
